The MOU comments are done and getting processed at the Tribe. I am finishing up the other comments today so they may or may not go out tomorrow depending on how long it takes them to get them out. The comments from WRPT will be almost identical but I am preparing for both Tribes.

If you need, just remind NDEP and EPA management that the Tribe has repeatedly asked for 60 days to review documents and we could not really review any of it until we had the MOU on July 31st.

Quick question – is YPT going to be able to submit their comments by end of the week? And do you know about WRPT?

Dante and Dave:

I put together a quick summary of property ownership for the site with the addition of a reach of the Walker River and the Weber reservoir. The references I use for the acreage along the river and reservoir can be downloaded using the link below. Feel free to use this as the site info is updated and let me know if we are make correct assumptions about this...

Dietrick

The wetland and non point report can be downloaded from filesanywhere....
